Subject: Confidential_Supplemental to CES Response to EPA Information Request #7

Dear Calvin,

Per our correspondence, please find attached a password-protected version of our updated Application Narrative that contains confidential business information (CBI). This complements our submission to the EPA's online GSDT from Wednesday (22-Sept-2021) and represents the last of the updated permit application documents we are submitting at this time. I will follow up separately to discuss any remaining open items.

Please confirm receipt of this file.

In order to maintain security, I will call you with the password to open the file.

I will also work with Shari to securely transfer the file directly to Cadmus.

Best Regards,
-Rebecca
